

Pneumaster Coolant Pump

The air powered liquid pump

Pneumaster Pump Kit

Includes pump, hose, couplings and aluminium extension wand.

Product Code: PM175K

Tool Kit

Includes plastic extension wand, crevice tool, round brush, flared nozzle/brush.

Product Code: VMTK22

Precision made stainless steel

Entire pump (except ball valve, float and O-ring) is made from stainless steel.

Easy to fit

Screws into threaded tap hole in top of standard metal 205 litre drum.

Easy to clean

The pump can be completely disassembled for easy cleaning.

Compressed air powered

The Pneumaster pump is powered by compressed air.

Safe to use

The Pnuemaster has no moving parts and is equipped with an automatic shut-off valve which activates when drum is full.

Fast - powerful action

Will fill a 205 litre drum in just 90 seconds.

Versatile

Designed to collect liquid borne sludge, metal chips and other debris.

For best results

Use filtered air 60-115psi, 10mm bore hose. Use only with sound, undented steel drums.

Caution: Not suitable for flammable or volatile substances.
