

Vacmaster

Vacuum & blow air guns

Remove and collect metal chips, plastic pellets, dust, powders and granules from work areas and surfaces.

Vacuum or blow - easy to operate

Vacmaster is made from nylon 6 abrasive resistant material for toughness and durability. It comes with a wide range of accessories and is simple to use with no moving parts. All that is required is a pressurised air supply.

There are three Vacmaster options to suit different needs and problems. The Reversible Air Gun, the Deep Hole Gun and Air Pump (which has all the features and benefits of the reversible air gun) designed for fixed installations.

- Low air consumption
- Hand held or static site
- Blow or vacuum
- No moving parts
- Wide range of accessories

Vacmaster Reversible Air Gun

Rapidly removes metal chips, pellets, powders etc from work areas and machine beds. Waste can be collected in the dust bag or conveyed via a hose into a bin or drum. The actions can easily be changed from vacuum to blow by simply reversing the internal venturi tube.

Product Code: VM22K

Vacmaster Deep Hole Gun

Designed for removing chips from blind holes up to 450mm deep. A plastic probe jets high pressure air into gaps and holes to dislodge particles - which are safely sucked away by the main nozzle. Nozzle is shrouded to prevent particles escaping and causing injury.

Product Code: VMDH22K

Vacmaster Air Pump

Has the features and benefits of the Reversible Air Gun, designed for fixed site installations.

Product Code: VMAP22

Vacmaster Tool Kit includes:

Plastic extension wand, crevice tool, round brush, flared nozzle/brush.

Product Code: VMTK22

Vacmaster Drum Kit includes:

40 litre drum and lid assembly, exhaust filter and support frame.

Product Code: VM22-PDK

Vacmaster Extension Hose

5 metres.

Product Code: VM22-45

CAUTION: Not suitable for flammable or volatile substances. Use filtered air @ 60-115PSI / 10mm bore air line.
