

Environmental Policy Statement

Filtermist International Ltd is a World leader in oil mist extraction and filtration. As such the Company recognises its responsibility to protect the environment.

Filtermist International Ltd commits to the prevention of pollution and the compliance with all relevant environmental legislation and other applicable requirements.

The company commits to the continual improvement, through regular audits of the Environmental Management System (which is in line with the requirements of ISO 14001:2015) and the establishment and review of objectives and targets, which will: -

- Investigate processes and activities and, where possible, transform or improve to reduce environmental impact.

- Improve the control of waste

- Ensure good understanding and involvement of all employees through provision of information, communication and training.

Filtermist International Ltd will strive to be an environmentally conscious company by working with its employees, customers and suppliers to produce environmentally sound products.

This policy is publicly available on request.
