

Environmental Policy Statement

Filtermist provides design, manufacture, assemble, supply, installation and servicing of filters including oil mist, oil smoke and dust filters, and associated accessories, and the design, manufacture, supply and installation of customised air movement, filtration, and extraction systems.

Filtermist has implemented an overarching quality management system designed to meet the requirements of ISO14001:2015.

Filtermist is fully committed to demonstrating leadership in environmental excellence and delivering services in a sustainable and ethical manner. Filtermist achieves this by working to continually improve its environmental performance, prevent pollution and to comply with all applicable legislation and other requirements, and where practicable, adopt best practice in environmental management.

Filtermist aims to:

- integrate the consideration of environmental concerns and impacts into all of our decision making and activities.
- promote environmental awareness among our employees through training and encouraging them to work in an environmentally responsible manner.
- purchase and use environmentally responsible products wherever possible.
- promote the efficient use of materials and resources throughout our facility including water, electricity, raw materials, and other resources, particularly those that are non-renewable.
- reduce waste through re-use and recycling and by purchasing recycled, recyclable, or re-furbished products and materials where these alternatives are available, economical, and suitable.
- take all reasonable steps to protect human health and the environment from the use of hazardous materials and products, ensuring materials are stored, managed, and disposed of appropriately and, where viable, sustainably.
- where required by legislation or where significant health, safety or environmental hazards exist, develop, and maintain appropriate emergency and spill response arrangements.
- to reduce business travel to minimise the environmental impact of this on the environment.
- strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.

Each year, objectives and targets for our environmental performance are set and reviewed in accordance with the procedures established under the Filtermist Environmental Management System.
