

European Community RoHS Directive

The RoHS Directive stands for "the Restriction of the use of certain Hazardous Substances in electrical and electronic equipment". This EU Directive, (2002/95/EC) was issued on 27 January 2003, and comes into force in the UK on 1 July 2006.

Under this directive, new electrical and electronic equipment must not be sold in the EU market if it contains more than agreed levels of:

- Lead
- Mercury
- Hexavalent
- Chromium
- Cadmium
- Polybrominated
- Biphenyls (PBB)
- Polybrominated Diphenyl Ethers (PBDE).

We periodically contact all of our suppliers of raw materials and components and request confirmation that all components purchased and used in our products comply and do not contain any of the substances listed above, and therefore comply with this directive.
