

Removes dust, particles fumes & smoke at source

Stay on top of the job and clean up with vacuum hose

The versatile easy to operate system

Designed to add on to existing central extraction systems, Loc-Line 2.5" Vacuum Hose can be easily mounted onto most plastic or metal pipe work.

By changing the length of the hose and style of nozzle it is simple to create the optimum specification for your application.

Hand adjustable in 360° and self supporting in lengths up to 3 feet, the hose can be quickly and easily positioned exactly where you want it.

Temperature Specifications

Maximum Operating Temperature: 75°C

Anti-Static Hose

The new black anti-static Vacuum Hose dissipates static build up

Surface resistivity:
1.000E3 Ohm

Volume resistivity:
<6.000E2 Ohm-cm

Portable Dust Collection

Use your workshop vacuum to collect dust at source. A simple adaptor allows you to connect the Loc-Line hose direct to your standard workshop vacuum for a totally portable solution.

- Easily positioned
- 360° hand adjustable
- Anti-static option
- Self Supporting
- Durable
