

# KAV 15-45 Type H

## Compressed air powered vacuum cleaners for hazardous dusts

This range of industrial vacuum cleaners is suitable for picking up hazardous dust and debris in Gas Zone 1 & Dust Zone 21. All models are supplied on a stainless steel caddy with braked castors and conductive wheels, are fully earth bonded and have an anti-static (conductive) vacuum and air supply hose. Every vacuum cleaner is individually tested and provided with its own test certificate for earth path continuity. All units are supplied with a complete conductive accessory kit.

### FILTRATION

<b>1st Stage</b>	Disposable microfibre bag
<b>2nd Stage</b>	Anti-static (conductive) cloth filter
<b>3rd Stage</b>	High efficiency particulate air (HEPA) filter

Efficiency 99.995% at 0.6 micron

KAV 15H

### TYPICAL PERFORMANCE

Please note power requirement - Do you have sufficient compressed air to spare?  
Optimum performance is achieved at an air input pressure of 90-120psi (6.2-8.3 Bar)

## TECHNICAL SPECIFICATION
