

KV 20, 25, 30, 45 & 50 Wet & Dry Vacuum Cleaners

Built without compromise to offer years of reliable service, this versatile range of industrial wet and dry vacuum cleaners will happily take on the toughest jobs. There is a model in this range perfectly suited to most requirements. The KV range can be supplied with a dent proof injection-moulded or non-magnetic stainless steel canister, a four castor chassis or heavy duty tubular caddy, and a choice of single or double motors on all sizes of canister. The KV 50 features the extra advantage of pivoting tip action to make it easy to empty.

FEATURES

Wet and Dry

- Twin fan bypass cooling motor
- One or two motors
- Thermal switch protection against overheating
- Virtually indestructible thick section injection moulded plastic motor head
- KV 30, 45 & 50 can be fitted with our bolt on fixed floor tool
- Hose entry will accept 32, 38 & 51mm hose and tool kits
- Non-magnetic 304 grade stainless steel canister or dent proof plastic canister
- Four castor chassis or tubular caddy for rougher surfaces
- Antistatic hose entry and 38mm conductive tool kit to dissipate build-up of nuisance static (Available for models with stainless steel canister at time of order or as a retro fit).

Wet only

- Efficient float ball wet shut off
- Net filter to float cage to prevent motor damage
- KV 30 & 45 can be fitted with dump valve or drain hose and stopper for quicker wet emptying.

Dry only

- Two stage dry filtration – disposable paper bag/filter and high efficiency cloth filter
- Optional high efficiency cloth filter.
